

CRITICAL INCIDENT AND EMERGENCY

Procedure

DEFINITIONS

Terms in this document, for which definitions are not provided in the text or may not be self-evident or for which usage at ACC may differ to that in other higher education institutions are as follows:

Affected person: An Individual who is, either directly or indirectly, a victim of or otherwise involved in a critical incident

ACC: Acronym for the Australian Chiropractic College, also referred to as 'The College'

Critical incident: Any event or series of events that is sudden, overwhelming, threatening or protracted, and which includes an event or activity or action that results in, or has the potential to result in serious illness or severe injury or death to a person(s), or inflict serious harm or damage or destruction to a building, or business premises or plant or equipment or data stored therein.

Damage: physical harm that impairs the value, usefulness, or normal function of something.

EAP: Acronym for Employee Assistance Program – a professional counselling practice engaged by ACC to provide support to employees.

Harassment: Means any form of behaviour that is unwelcome, unsolicited, unreciprocated and usually (but not always) repeated. It is behaviour that is likely to offend, humiliate or intimidate. Harassment can be based on any of the attributes listed under the definition of discrimination and for example can include sexual, disability, racial, sexuality or gender based harassment.

Incident: In Workplace Health and Safety is a work-related event(s) in which an injury or ill health (regardless of severity) or fatality occurred, or could have occurred.

Individual(s): ACC staff and students (prospective, current and former), and other individuals associated with the College such as external providers, practicum hosts and contractors.

Loss: the feeling of grief after losing someone or something of value.

NOK: Acronym for Next of Kin.

Staff: Refers to academic and non-academic staff employed by the ACC.

Student: An individual person who is formally enrolled to study at the College. The 'individual person' is that who appears on the College's documents such as enrolment, admission and payment documents, and who is assigned an individual student ID.

Support Services: Services provided by the ACC, or are available externally, which are designed to provide student academic and personal support.

Trauma: The response to a deeply distressing or disturbing event that overwhelms an individual's ability to cope, causes feelings of helplessness, diminishes their sense of self and their ability to feel the full range of emotions and experiences.

While there are no objective criteria to evaluate which events will cause post-trauma symptoms, circumstances typically involve the loss of control, betrayal, abuse of power, helplessness, pain, confusion and/or loss.

PURPOSE

This procedure provides details for the management of critical or potentially critical incidents at the ACC workplace(s), to minimise risks to health and safety and minimise their impact on people.

SCOPE

It is applicable to all ACC staff, students, contractors and visitors.

PROCEDURE

1. Crisis management and recovery team (CMR Team)

A Major or Critical Incident is managed by the Crisis Management and Recovery Team (CMR Team). The CMR Team is comprised of the following people:

- General Manager;
- Academic Dean; and
- Nominated professional staff as appropriate.

The CMR Team is responsible for coordinating and managing a response to an incident in order to minimise trauma, loss and damage.

CMR Team also manages recovery from the incident after the incident has moved from the critical phase to the recovery phase.

2. Immediate response

The CMR Team will determine:

- What is the incident?
- When and where did it occur?
- Who is involved and who needs assistance?
- What immediate actions need to be taken?

Immediate actions may include:

- Take safety precautions such as turn off power or water.
- Administer first aid.
- Call 000 for emergency services and police as appropriate.
- Evacuate the site (see Fire, Evacuation and Emergency Preparedness Procedures).
- Secure the site.

3. Support Plan or Recovery and Restoration Plan

In the first 24 hours the CMR team will:

- Complete the Critical Incident Form (See Appendix A).
- Where appropriate, provide an update to staff and students.
- Engage a media management provider if required.

- Advise any government agencies, including TEQSA, as appropriate.

In the first 48 hours the CMR team will:

- Prepare a high-level support plan for affected individuals of the incident and/or a recovery plan for the specific incident as appropriate.
- Continue frequent communication with stakeholders.
- Engage support services as required.
- Begin to re-establish routines and normal practices.

For the next two weeks, the CMR team will:

- Monitor the implementation of the high level support and or recovery plan/s.
- Continue re-establishing routines and normal practices.
- Continue frequent communication with stakeholders.
- Monitor for delayed reactions.
- Ensure support is provided where needed.
- Report to any government agencies, including TEQSA, as appropriate.

4. Post incident

Once restoration has been achieved, the CMR team will:

- Agree and activate any ongoing support arrangements.
- Review the causes and response to the incident.
- Make recommendations for any improvements to the Finance and Risk Committee .
- Place an incident record in the records management system to be saved for:
 - two years where the incident does not involve an Individual
 - on the student record or the staff file, stored confidentially where necessary, when the incident involves an Individual. These records are stored in accordance with the Records Management Policy.

REPORTING

The General Manager is responsible to record all incidents in the Incident Register. The General Manager is also responsible to record all critical incidents in the Critical Incident Register. Both Registers include the date, time and nature of the incident, the person(s) involved, the manager responsible for action, the action(s) taken, the outcome(s) and, if relevant, the means of ongoing review.

The General Manager is responsible to review both the Incident Register and the Critical Incident Register on an annual basis, or more frequently if deemed necessary, to identify trends. The General Manager is responsible to implement mitigating measures to respond to identified trends.

All critical incidents are reported to the Financial, Audit and Risk Committee and the Board of Directors on a deidentified basis.

IMPLEMENTATION and MONITORING

The implementation of this procedure is the responsibility of the General Manager.

REVIEW

The Critical Incident Procedure is reviewed every three years.

It is a policy of the ACC that any Policy or Procedure may be reviewed earlier as indicated by internal or external

factors (including but not limited to such factors as changes in the guidelines of regulatory authorities, accreditation/registration requirements of the profession, or relevant legislation at state or federal level) as determined the Board of Directors and/or Academic Board.

RELATED POLICY DOCUMENTS

- Critical Incident and Emergency Policy
- Workplace Health and Safety Policy and Procedures
- Sexual Assault and Sexual Harassment (SASH) Prevention Policy
- Code of Conduct Policy and Procedures
- Workplace Bullying and Work-Related Violence Policy and Procedures
- Equity and Anti-discrimination Policy.
